Embold Clinic Integration

Meet Gina a 40-year-old office manager who has had recent severe cluster headaches.

PATIENT JOURNEY

Simplifying Gina's healthcare journey

Eliminate

options.

uncertainty and

frustration for

members amid overwhelming

Members are 40%

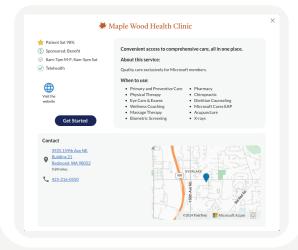

more likely to see a high-performing

doctor when using Embold's tools

- Gina logs into Provider Guide and utilizes EVA chat feature to find help for her pain. EVA promptly directs her to visit her employer's clinic, conveniently located 2 miles away from her office
- The clinic's provider evaluates Gina and her condition is more severe than expected and requires a specialist
- 3 The clinic's care navigator/clinical team checks Gina's in-network options and selects the highest performing Neurologist in close geographic proximity to where Gina lives
- 4. The care navigator shares these recommendations over text and email, and Gina chooses her specialist based on distance, gender, and other preferences.
- 5. Gina confidently visits her new Neurologist and can get the care that she needs.

A COMPLETE PARTNERSHIP:

- Seamless integration into existing healthcare solutions
- Empower your clinic's care navigators with insights to refer at risk patients to the right specialist for their specific care needs.
- Foster trust and ensure care for your members
- Leverage Embold's Virtual
 Assistant, EVA, to empower your
 care team with rapid solutions
 tailored for your patients
- Care navigator resources and onboarding training
