crossover

About Crossover Health

Crossover is a leader in delivering value-based hybrid care with a focus on wellbeing and prevention. We build trusted relationships with our members and offer care in person, online, and anytime using data analytics and social determinants of health to deliver concrete results. **Together we're building health as it should be.**

Proven outcomes

Crossover's Primary Health model is designed to drive engagement where it matters most—with the member. Here are some of the ways we've shifted the cost equation and changed the way employees of the world's most influential companies use healthcare.

SATISFACTION

93% 93% of Crossover members "love" their healthcare here and 81% make us their "medical home"

MENTAL HEALTH

6 days Crossover members get mental health appointments in an average of 6 days, 42 days faster than in the community

SAVINGS

15% Crossover's care model can deliver a 15% reduction in total healthcare costs

AVAILABILITY

50 Crossover has care teams licensed in all 50 states to provide online care for members

A Flexible Care Model to Simplify Employee Healthcare

No matter your industry or the distribution of your workforce, Crossover Health can partner with you to build a healthcare solution that works for your employees. Our proven Primary Health model is designed to meet the changing health and wellness needs of your employee population over time while helping you achieve your bottom line on cost and quality.

Crossover believes that Primary Care is foundational to managing health and wellness

We build trusted relationships with each member by offering services that can be scaled to meet the needs of employers large and small, at headquarters or remote, across all industries. We do this through our biopsychosocial care model that delivers exceptional care via comprehensive, integrated, and accountable teams.
