# Let's get every body moving

Hinge Health is the leading digital clinic for muscle and joint care, designed for everybody and every body part.

## Reimagined MSK care — built around your members

### Simply Accessible

Put a digital clinic in every member's pocket with our all-in-one app — so members can get moving any time, anywhere.

### Clinically Complete

Make lasting physical and behavioral change with care from physical therapists, health coaches and surgeons. Improve engagement with wearable devices for motion tracking and everyday pain relief.

### Intelligently Personalized

Provide personalized care that gets smarter with every move — with early interventions and coordination across digital and in-person providers.
