

Make the most of your pharmacy benefit investment

PSGCOMPLETE™

Deliver a better member experience, and say goodbye to wasted drug spend.

Your pharmacy benefit is a valuable asset representing millions of dollars invested in the health and well-being of your employees — and PSG Complete is a whole new way to manage it. Our team of clinical and benefits experts will provide the insights and guidance you need to optimize clinical value, reduce waste, and improve the member experience.

\$12.7B

2022 total identified savings

Managing the pharmacy program takes expertise and vigilance. A successful program that protects members while optimizing financial performance requires constant focus, clinical knowledge, and an in-depth understanding of drug management strategies.

That is what PSG Complete offers – a full-service program that begins with helping you find the best PBM to meet your needs and continues throughout the entire term of the agreement. We are always on and always on your side.

It starts with a custom procurement

The PBM market is constantly changing with new vendors and opportunities to innovate. Our consultants offer extensive market expertise and work with you to design a pharmacy program that meets your organization's strategic objectives. We then perform a thorough PBM selection process to identify the vendor that best aligns with your goals. Our rigorous procurement process ends with a contract that ensure the PBM is accountable for delivering what was promised during the bidding process.

But it doesn't end there

PSG Complete provides continuous monitoring and management of your program. We understand what it takes to reduce unnecessary pharmacy spend, hold the PBM accountable for results, and put your members' best interests at the center of the program. You benefit from the expertise and industry knowledge of our consultants, pharmacists, auditors, and financial analysts.

Your SmartSpend™ Team will monitor and manage your drug program and hold the PBM to its contractual obligations.

Powered by Artemetrx

PSG Complete is powered by Artemetrx – our proprietary platform offering integrated drug cost management analytics. With full visibility into your medication utilization in the pharmacy and medical benefits, our pharmacists and analysts can quickly identify the drivers of spend for your program. **Your SmartSpend™ Team** will proactively use Artemetrx to find savings opportunities related to emerging trends, suboptimal specialty drug utilization, and fraudulent schemes.

PSGCOMPLETE™

Always on. Always on your side.

A continual focus on program optimization can double the savings initially achieved through improved contract terms and pricing.

PSG Complete is a unique approach providing oversight to protect your drug spend from procurement through renewal.

Our mission is to relentlessly advocate on your behalf to help you achieve maximum return on your pharmacy benefit investment.

Plan sponsors need an impartial advocate when it comes to managing the pharmacy benefit. As a fiercely independent company — without affiliations or bias — PSG acts solely in the plan sponsor's best interest. We have built a team of the best people, with experience at PBMs, health plans, health systems, and pharmacies to deliver results.
